

# 05

## Conference Papers

<b>Distributed Energy Systems and Infrastructure</b>	<b>46</b>
<b>Optimal Energy Technology Networks in Spatial Energy Planning in Austrian City Quarters</b>	
S. Maier, H. Dumke, M. Eder, J. Fischbäck, M. Malderle, E. Rainer	46
<b>Energy and the City: Investigating Spatial and Architectural Consequences of a Shift in Energy Systems on District Level in a Summer School</b>	
A. Willmann, S. Cisar, Z. Nagy, A. Schlueter	52
<b>Optimal Energy System Transformation of a Neighbourhood</b>	
R. Wu, G. Mavromatidis, K. Orehounig, J. Carmeliet	58
<b>Matching Renewable Energy Production and Consumption by Market Regulated Demand Site Management (DSM)</b>	
T. Schluck, R. Bühler, S. Sulzer, M. Sulzer	64
<b>Holistic Optimization of Urban Morphology and District Energy Systems</b>	
C. Waibel, R. Evins, J. Carmeliet	70
<b>Built from Determinants of Urban Land Surface Temperature: A Case of Mumbai</b>	
S. Mehrotra, R. Bardhan, K. Ramamritham	78
<b>Integration of Outdoor Human Comfort in a Building Energy Simulation Database Using CityGML Energy ADE</b>	
S. Cocco, D. Mauree, J. Kämpf, J.-L. Scartezzini	84
<b>Multi-Scale Modelling to Assess Human Comfort in Urban Canyons</b>	
D. Mauree, S. Cocco, J. Kämpf, J.-L. Scartezzini	90
<b>Assessing the Performance and Resilience of Future Energy Systems at Neighborhood Scale</b>	
J. A. Fonseca, A. Schlueter	96
<b>Facilitating Climate Adaptive Urban Design – Developing a System of Planning Criteria in Hungary</b>	
F. Szekerdilisz, M. Kiss, L. A. Égerházi, D. Kassai-Szoó, Á. Gulyás	102
<b>Comparison of District Heating Systems and Distributed Geothermal Network for Optimal Exergetic Performance</b>	
P. M. Falk, F. Meggers, P. Stephan, F. Dammel	108
<b>Campus as a Lab: Building- and System-Level Air Movement Investigations</b>	
E. Teitelbaum, S. Urano, L. Conlan, A. Percival, J. Hinson, F. Meggers	114
<b>Uncertainty and Sensitivity Analysis for the Optimal Design of Distributed Urban Energy Systems</b>	
G. Mavromatidis, K. Orehounig, J. Carmeliet	122
<b>Does Roof Shape Matter? Solar PV Integration on Roofs</b>	
N. Mohajeri, D. Assouline, B. Guiboud, J.L. Scartezzini	130
<b>LCA as Key Factor for Implementation of Inertia in a Low Carbon Performance Driven Design: The Case of the Smart Living Building in Fribourg, Switzerland</b>	
A. Brambilla, E. Hoxha, T. Jusselme, M. Andersen, E. Rey	136
<b>Tuning Energy Performance Simulation on Behavioural Variability with Inverse Modelling: The Case of Smart Campus Building</b>	
L. C. Tagliabue, M. Manfren, A.L.C. Ciribini, E. De Angelis	142
<b>Strategic Planning for the Transformation of a University Campus Towards Smart, Eco and Green Sustainable Built Environment: A Case Study from Palestine</b>	
S. Abu-Eisheh, I. Hijazi	148
<b>Introduction of a Dynamic Interpretation of Building LCA Results: The Case of the Smart Living (Lab) Building in Fribourg, Switzerland</b>	
E. Hoxha, T. Jusselme, M. Andersen, E. Rey	154
<b>NEST – Exploring the Future of Buildings</b>	
P. Richner, R. Largo	160
<b>What Should a Building be Controlled for? Ask the Occupants!</b>	
Z. Nagy, F. Y. Yong, A. Schlueter	166
<b>Prediction of Users' Behaviour Patterns Impact on Energy Performance of a Social Housing in Cremona, Italy</b>	
L. C. Tagliabue, M. Manfren, A.L.C. Ciribini, E. De Angelis	172
<b>Towards Sustainable Occupant Behavior and Organizational Change</b>	
D. V. Keyson, T. J. Jaskiewicz	178
<b>Modelling Load Profiles for the Residential Consumption of Electricity Based on a Milieu-Oriented Approach</b>	
N. Haufe, M. Ziegler, T. Bednar	184

**A Methodology for Energy Audit for Commercial Buildings Using Machine Learning Tools**

C. Deb, S. E. Lee, J. Yang, K. W. Shah 190

**Overheating Reduction of a Cold Formed Steel-Framed Building Using a Hybrid Evolutionary Algorithm to Optimize Different PCM Solutions**

A. J. Figueiredo, R. Vicente, J. Kämpf, C. Cardoso, J.-L. Scartezzini, F. Rodrigues 196

**Model Predictive Control for Geothermal Borehole Depth Determination**

H. Guo, F. Meggers 202

**Integrating Persuasive Technology in Prototypes of Interior Walls to Stimulate Behavioural Change**

M. Mohammadi, C. Hammink, M. Dominicus, K. Hermans 208

**Toward an Integrated Platform for Energy Efficient Lighting Control of Non-Residential Buildings**

A. Motamed, L. Deschamps, J.-L. Scartezzini 216

**Dynamic Energy Weighting Factors to Promote the Integration of Renewables into Buildings**

L. Baldini 222

**Solar Energy Availability in Urban Densification Process Impact on Existing Buildings in a Swiss Case Study**

C.S. Polo López, M. Sala, F. Frontini, L. C. Tagliabue, E. De Angelis, G. Pansa 228

**Towards Integrated Design Strategies For Implementing BIPV Systems into Urban Renewal Processes: First Case Study in Neuchâtel (Switzerland)**

S. Aguacil, S. Lufkin, E. Rey 234

**From Design to Operation – Lessons Learned from the World's First Passive-House Office Tower**

C. Steininger, R. Toth 240

**An Integrated and Intelligent Way Towards Energy Management – The Cockpit**

S. Lee, K. Shah, J. Yang, C. Deb 246

**Campus Sustainability Retrofits: A Multi-Criteria Site Selection Model for Low Impact Development (LID)**

A. Kamal 252

**Life-Cycle Oriented Approaches 258****LCA Enhancement Perspectives to Facilitate Scaling up from Building to Territory**

G. Sibiude, A. Mailhac, G. Herfray, N. Schiopu, A. Lebert, G. Togo, P. Villien, B. Peuportier, C. Vaele 258

**LCA Applicability at District Scale Demonstrated Throughout a Case Study: Shortcomings and Perspectives for Future Improvements**

A. Mailhac, G. Herfray, N. Schiopu, N. Kotelnikova-Weiler, A. Poulhes, S. Mainguy, J. Grimaud, J. Serre, G. Sibiude, A. Lebert, B. Peuportier, C. Vaele 266

**Combining GIS Data Sets and Material Intensities to Estimate Vienna's Building Stock**

F. Kleemann, J. Lederer, H. Rechberger, J. Fellner 274

**A GIS-Based Approach for the Energy Analysis and Life Cycle Assessment of Urban Housing Stocks**

A. Mastrucci, A. Marvuglia, E. Benetto, U. Leopold 280

**Geo-Dependent Heat Demand Model of the Swiss Building Stock**

S. Schneider, J. Khoury, B. Lachal, P. Hollmüller 286

**Economic and Ecological Assessment of Cuban Housing Solutions Using Alternative Cement**

Y. Cancio Diaz, S. Sanchez, F. Martirena, I.R. Sanchez, K. Scrivener, G. Habert 292

**A Sustainable Development Approach for Affordable Housing in Egypt**

A. Mokhtar 298

**Environmental Implications and Opportunities of Digital Fabrication**

I. Agustí-Juan, G. Habert 304

<b>A Novel Perspective on the Avoided Burden Approach Applied to Steel-Cement Making Joint System</b>	
M. R.M. Saade, M. G. da Silva, V. Gomes	310
<b>Air Dehumidification with Novel Liquid Desiccant System</b>	
J. Pantelic, E. Teitelbaum, S. Kim, H. Guo, A. Schlueter, A. Rysanek, F. Meggers	316
<b>Deep Renovations within Smart Asset Management</b>	
E. Nippala, T. Vainio	322
<b>A Multi-Criteria Approach for the Assessment of Housing Renovation Strategies</b>	
O. Pombo, K. Allacker, B. Rivela, J. Neila	328
<b>Business Case Study for the Zero Energy Refurbishment of Commercial Buildings</b>	
A. Greco, T. Konstantinou, H.R. Schipper, R. Binnekamp, E. Gerritsen, R. de Graaf, A. van den Dobbelsteen	334
<b>Impact of Building Refurbishment Strategies on the Energetic Payback</b>	
A. Passer, C. Ouellet-Plamondon, P. Keneally, G. Habert	340
<b>Economic and Environmental Assessment of Building Renovation: Application to Residential Buildings Heated with Electricity in Switzerland</b>	
B. Périsset, S. Lasvaux, C. Hildbrand, D. Favre, S. Citherlet	346
<b>Environmental Effects of an Alpine Summit Tunnel</b>	
F. Gschösser, W. Purrer, P. Sander	352
<b>Selection of Environmental Datasets as Generic Data: Application to Insulation Materials within a National Context</b>	
J. D. Silvestre, S. Lasvaux, J. Hodková, J. de Brito, M. D. Pinheiro	360
<b>€coffice-LCC and LCA as Part of the Integrated Design Approach for a High Performance-Low Cost Office Building</b>	
L. Delem, R. Decuyper, O. Darteville	364
<b>Sustainable Stepwise Building Renovation</b>	
M. Lehmann, W. Ott	372
<b>Environment and Economy – An Alliance of Mutual Benefits in Residential Building</b>	
V. John, S.D.T. Schwarz, G. Habert	378
<b>A Framework for Life Cycle Assessment of Concretes with Recycled Aggregates in Large Metropolitan Areas</b>	
A. Yazdanbakhsh, L.C. Bank, T. Baez, I. Wernick, A. Hamidi	384
<b>Life Cycle Analysis of Recycled Aggregate Concrete with Fly Ash as Partial Cement Replacement</b>	
S. Marinković, G. Habert, I. Ignjatović, J. Dragaš, N. Tošić, C. Brumaud	390
<b>Eco-Efficiency of Construction and Demolition Waste Recycling in Chongqing, China</b>	
J. Wu, M. Hu, S. Shi, T. Liu, C. Zhang	398
<b>Efficiency of Using Recycled Fine Aggregate for a New Concrete</b>	
A. Katz, D. Kulisch	404
<b>The Cost and Environmental Impact of Service Life Extending Self-Healing Engineered Materials for Sustainable Steel Reinforced Concrete</b>	
P. Van den Heede, B. Van Belleghem, N. De Belie	408
<b>Eco-Mechanical Performances of UHP-FRCC: Material vs. Structural Scale Analysis</b>	
A. P. Fantilli, S. Kwon, H. Mihashi, T. Nishiwaki	414
<b>Low Carbon Cement: A Sustainable Way to Meet Growing Demand in Cuba</b>	
S. Sanchez, Y. Cancio, F. Martirena, I.R. Sanchez, K. Scrivener, G. Habert	420
<b>Life Cycle Assessment of Precast and Cast-In-Situ Construction</b>	
Y. H. Dong, L. Jaillon, C.-S. Poon	426
<b>Process Mapping and Preliminary Assessment of Life Cycle Impact in Indian Cement Plants</b>	
R. Gettu, S. Prakashan, A. Patel, V. Rath, K. Nagraath, S. Palaniappan, S. Maity	430
<b>The Environmental Relevance of the Construction and End-Of-Life Phases of a Building: A Temporary Structure LCA Case Study</b>	
A. Arrigoni, D. Collatina, M. Zucchini, G. Dotelli	436
<b>Overcoming Obsolescence: A Case Study Renovation Building – Ideas on Reuse in Planning and Building Process</b>	
A. Hafner	442
<b>Resources in Buildings and Their Recycling Options</b>	
K. Krause, A. Hafner, S. Schäfer	448

**Life Cycle GHG Emissions from a Wooden Load-Bearing Alternative for a ZEB Office Concept**

A. Houlihan Wiberg, T. Barnes Hofmeister, T. Kristjansdottir, B. Time 454

**Smart Regeneration of Public Utility Buildings**

E. Arbizzani, P. Civiero, C. Clemente 460

**Demolition versus Deep Renovation of Residential Buildings: Case Study with Environmental and Financial Evaluation of Different Construction Scenarios**

L. Wastiels, A. Janssen, R. Decuypere, J. Vrijders 466

**Retrofitting Measure vs. Replacement – LCA Study for a Railway Bridge**

F. Gschösser, R. Schneider, A. Tautschnig, J. Feix 472

**Towards a Reliable Comparison between Environmental and Economic Cost of Swiss Dwellings: A Model with Building Materials' Service Life Uncertainty**

I.-F. Haefliger, V. John, S. Lasvaux, E. Hoxha, A. Passer, G. Habert 478

**Integrated Approaches and Tools for Decision-Making 484**

**Engaging Stakeholders through Local Project Committees**

G. Barbano, A. Moro 484

**Management of User and Stakeholder Interests in Multi-Criteria Assessments**

H. Kreiner, A. Passer 490

**Business Model Innovation for Local Energy Management: A Systematic Methodology**

E. Facchinetti, S. Sulzer 496

**Establishing Links for the Planning of Sustainable Districts**

S. Cajot, N. Schüler, M. Peter, J. Page, A. Koch, F. Maréchal 502

**Which Additional Impact Categories Are Ready for Uptake in the CEN Standards EN 15804 and EN 15978? Evaluation Framework and Intermediate Results**

K. Allacker, D. De Lathauwer, W. Debacker, W.C. Lam, K. Boonen 514

**Integrated Process for the Evaluation and Optimization of Buildings Performance**

B. Daniotti, A. Pavan, D. Pasini, M.A. Chiozzi 520

**Critical Analysis of Sustainability Scoring Tools for Neighbourhoods, Based on a Life Cycle Approach**

D. Trigaux, K. Allacker, F. De Troyer 526

**Building Occupancy Certification: Development on an Approach to Assess Building Occupancy**

O. Guerra-Santin, T. Jaskiewicz, J. Doolaard, D. Keyson 532

**Renovation in Austria – Analysis of the Energy Performance Certificates between the Years 2006 and 2015 of the County Salzburg**

M. Prieler, M. Leeb, T. Reiter 538

**Ecological Footprint Analysis of Canadian Household Consumption by Building Type and Mode of Occupation**

C. Jouaneau, M. Dupuis, N. Grunewald, C. Ouellet-Plamondon 544

**Life Cycle Assessment as a Design Aid Tool for Urban Projects**

C. Roux, G. Herfray, P. Schalbart, B. Peuportier 550

**From a Simple Tool for Energy Efficient Design in the Early Design Phase to Dynamic Simulations in a Later Design Stage**

A. Miyamoto, D. Trigaux, T. Nguyen Van, K. Allacker, F. De Troyer 556

**Analysis of the Material-Related Design Decision Process in Flemish Architectural Practice**

E. Meex, E. Knapen, G. Verbeeck 562

**Economic Flow Analysis of Construction Projects to Support Sustainable Decision-Making**

D. Ioannidou, S. Zerbi, G. Habert 568

**Urban Planning and Solar Potential: Assessing Users' Interaction with a Novel Decision-Support Workflow for Early-Stage Design**

E. Nault, L. Pastore, E. Rey, M. Andersen 574

**Increase the Efficiency in Sustainable Construction Using BIM**

C. K. Druhmman, S. Ashworth, H. J. Bernegger 580

<b>The City Energy Analyst Toolbox V0.1</b>	
J. A. Fonseca, D. Thomas, A. Willmann, A. Elesawy, A. Schlueter	584
<b>A Method for Evaluating the Environmental Life Cycle Potential of Building Geometry</b>	
A. Hollberg, N. Klüber, S. Schneider, J. Ruth, D. Donath	590
<b>Economic Factors for Successful Net Zero Energy Refurbishment of Dutch Terraced Houses</b>	
A. Greco, T. Jonathan, B. Bogers, A. van den Dobbelsteen	596
<b>Sustainability Indicators for Buildings: Network Analysis and Visualization</b>	
L. C. Tagliabue, M. Manfren	602
<b>Integrating an Environmental and Socio-Economic Assessment Tool for the Development of Brownfield Development Projects</b>	
F. Cappai, D. Forgues, M. Glaus	608
<b>Survey Tool for the Built Environment</b>	
H. C. Leindecker, D. Mittermaier	616
 <b>Innovative Materials and Components</b>	 <b>622</b>
<b>Bio-Based Plastics-Composites for Sustainable Building Skins: Life Expectancy of Cladding Derived from Wind Suction Tests</b>	
D. Friedrich, A. Luible	622
<b>Holistic Observations on the Sustainability of High-Rise Building Facades</b>	
M. King, D. Geissbühler, U. Menti	628
<b>Integrated Approaches for Large Scale Energy Retrofitting of Existing Residential Building through Innovative External Insulation Prefabricated Panels</b>	
G. Iannaccone, G. Salvalai, M. M. Sesana, R. Paolini	636
<b>Limestone Calcined Clay Cement for a Sustainable Development</b>	
A. Favier, F. Avet, M. Antoni, K. Scrivener	644
<b>Design-Engineering-Based and Material-Based Improvement of Precast Concrete-Facade-Elements</b>	
M. Pätzold, F. Musso, Th. Lechner, O. Fischer, D. Heinz	650
<b>Life Cycle Assessment of a Post-Tensioned Timber Frame in Comparison to a Reinforced Concrete Frame for Tall Buildings</b>	
L. Cattarinussi, K. Hofstetter, R. Ryffel, K. Zumstein, D. Ioannidou, M. Klippel	656
<b>A New Route for Self-Compacting Clay Concrete</b>	
G. Landrou, C. Brumaud, G. Habert	662
<b>Improving Rammed Earth Walls' Sustainability through Life Cycle Assessment (LCA)</b>	
A. Arrigoni, D. Ciancio, C.T.S. Beckett, G. Dotelli	668
<b>Naturally Ventilated Earth Timber Constructions</b>	
A. Klinge, E. Roswag-Klinge, C. Ziegert, P. Fontana, M. Richter, J. Hoppe	674
<b>Environmental Assessment of Radical Innovation in Concrete Structures</b>	
S. Zingg, G. Habert, T. Lämmlein, P. Lura, E. Denarie, A. Hajjesmaeili	682
<b>Nanotechnology and Its Impact on Sustainable Architecture</b>	
N. Eisazadeh, K. Allacker	688
<b>Sustainable Insulation System Based on Fabrics</b>	
A. Saur, S. Kunz, D. Geissbühler	696
<b>Ecological Performance of Timber / Wood-Cement Compound Composite Slabs</b>	
M. Maeder, D. Zwicky	702
<b>Filter Facade</b>	
F. Oswald	708
<b>Spherical Motion Average Radiant Temperature Sensor (SMART Sensor)</b>	
E. Teitelbaum, J. Read, F. Meggers	714
<b>Environmental Optimisation of Shotcrete Applied at the Brenner Base Tunnel (BBT)</b>	
T. Cordes, F. Gschösser, K. Bergmeister	720
<b>Material Quantities and Embodied Carbon in Exemplary Low-Carbon Case Studies</b>	
C. De Wolf, K. Bird, J. Ochsendorf	726
